DSI Columns

DSI Columns provide a wide range of distinct benefits to builders and homeowners alike. Engineered for lasting durability and structural integrity, these long-established designs will stand up to the harshest elements and continue to support your dream home for years to come.

Designed for high strength, load-bearing applications, DSI Columns are extremely durable and low maintenance. They are artfully crafted at every stage of production, resulting in exquisite detail and a consistently smooth finish that requires minimal sanding. All columns have correct architectural proportions in taper and fluting.

Simply put, DSI Columns are low maintenance and easy to install. All columns are backed by a "Lifetime Limited Warranty" against defects in material and workmanship.

Caulk-N-Walk Seamless Column is the first white seamless satin finish column that requires no sanding or painting. Each Caulk-N-Walk Seamless column comes with a patented polyurethane white cap and white composite base. Everything you need in one box. Just caulk and walk.

Plumb Perfect Column™ Installation System takes a common sense approach to removing the hassle associated with installing a column. The column comes sanded and ready to paint. Everything you need to install a column comes in one box.☺

Eliminate Your Splitting Headaches™ with **Split-Fit Columns™**. Cast indexing keys make aligning the column halves stress free, no screws or tabs required. Tongue & Groove fit assures snug installation. Every Split-Fit Column comes with a Split Reassembly Kit.

☺ Columns 12" x 12'-0" and smaller come with cap & base in 1 box. Columns exceeding 12" in width and/or 12' in height do not come with cap & base in 1 box, cap & base must be ordered separately.

Plumb Perfect Column™ Installation System

DSI Columns' patented Plumb Perfect Column™ Installation System takes a common sense approach to installing a column. Everything you need to install a column comes in one box. Plumb Perfect's Column™ Installation System will guide you to project completion while saving you valuable time and money. Whether it is a single column or a group of columns your job will be accomplished more easily than ever before.

- The first all-in-one box column system.
- Column, capital and base are paint-ready out of the box.
- No more searching for parts.
- Tuscan Capital
- Doric Architectural Base
- Plumb Perfect Column™ eliminates outside installation hardware. No more brackets.
- Plumb bob, installation disc and base target make plumbing a column quick and easy.
- Base target assists in positioning base ring and column.
- Lower the base over the base ring and with a little adhesive everything is locked in place. Finish with caulk.
- Simply push the capital into position, secure with adhesive.
- Plumb Perfect Column™ does away with finish work on screw heads by concealing all installation devices.
- Lifetime Limited Warranty
- Made in the U.S.A.

Everything you need in one box!

⚠ Columns 12" x 12'-0" and smaller come with cap & base in 1 box. Columns exceeding 12" in width and/or 12' in height do not come with cap & base in 1 box, cap & base must be ordered separately.

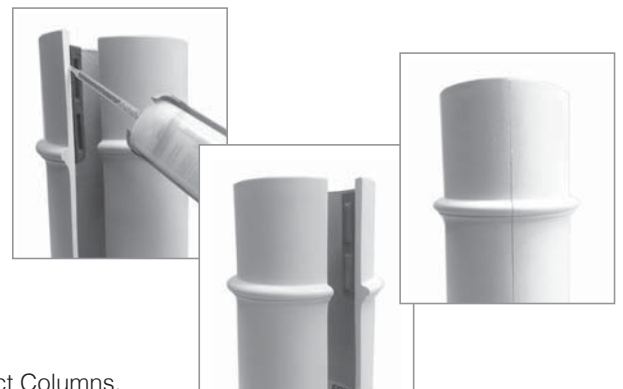

Split-Fit™ Column Reassembly System

Eliminate Your Splitting Headaches™.

Column & Post Cracks the Code on Split Columns with Split-Fit™ Columns.

- Cast indexing keys make aligning the column halves stress free.
- No slipping or sliding at glue joint.
- You can use fast setting epoxy to reduce installation time.
- Fully split columns arrive ready to install.
- Precision Diamond Cut line is easy to finish.
- Eliminates the hassle of finishing the splitting at the job site.
- Saves valuable finishing time.
- Tongue & Groove fit assures snug installation.
- Three dimensional alignment guaranteed.
- Keys restrict lateral & vertical play. Ensures an easy to finish seam.
- Split Reassembly Kit included with Caulk-N-Walk and Plumb Perfect Columns.
- Lifetime Limited Warranty

Caulk-N-Walk Round Tapered Smooth Columns

Caulk-N-Walk White Seamless Column

- The first white seamless column with a satin finish. No more parting lines to sand.
- Patented polyurethane Tuscan capital painted white with foam ring insert that fits snug around the column.
- White composite base. Doric architectural detail that stands up to wear and tear.
- Caulk around the bottom of the capital and top of the base and walk away.
- Everything included in one box –
 - Column, Cap and Base
 - Installation Instructions
 - Base ring with pre-drilled holes
 - Base ring target
 - Installation disc with pre-drilled holes
 - Plumb bob with eyelet hanger and string
 - Nine Tapcon® Screws
 - Wood Shim
- Limited Lifetime Warranty
- Made in the U.S.A.
- Paint Optional

Plumb Perfect Round Tapered Columns

From the celebrated and historic cities of Europe, to charming and welcoming front porches across America, the Tuscan column is one of the most recognizable architectural elements the world over. The Tuscan column and its timeless elegance have been featured on the work of architects and builders since ancient times.

The attractive, deep flutes are sculpted into the column master providing long crisp shadow lines for added depth and attractiveness. Whether configured in a colonnade along a veranda or positioned on the sides of a dining room entry, fluted columns will complement the ambiance of these elegant spaces.

Columns must be painted.

Colonial Wood Round Tapered Columns

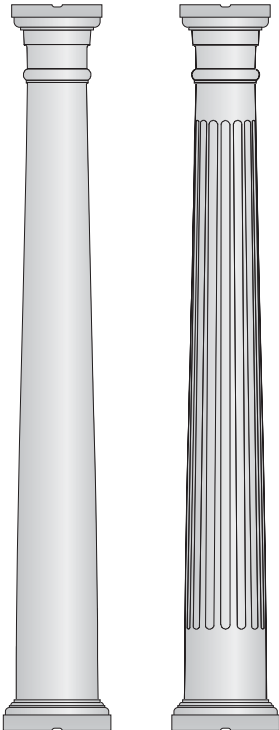

Column shafts are constructed from finger-jointed pine staves, with a one year limited warranty if installed according to installation instructions.

All exterior finger-joint Pine products are treated with Woodlife® 111 water repellent, which provides maximum protection against mold, mildew, staining and decaying fungi. This also increases dimensional stability and helps prevent shrinkage, swelling, and warping.

Wood column shafts are shorter than column nominal height. **Standard cap and base shipped are polyurethane**; finger-joint pine capitals are available. The cap and base are load bearing and attach to the ends of the shaft, achieving the stated overall height.

Columns must be painted.

NOTE: Exterior Alkyd Primer accepts latex or oil paint.

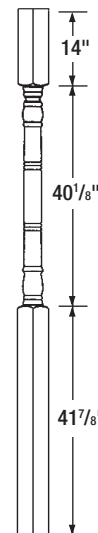

Treated Porch Posts

Western Lodge Pole Pine is a slow growing, fine grain species of wood. It is more stable, with significantly less warping, twisting or bowing than other species used for treated wood. Treated Lodge Pole Pine provides an economical, long lasting component for outdoor use. Paint, stain or leave as is.

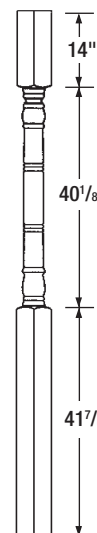

Post Saver™ mounting blocks are recommended.
